

# Archana BioCycle Profile

"Clean Fuel. Green Future."

MANUFACTURER OF BIOMASS BRIQUETTES & PELLETS

[www.archanagroups.in](http://www.archanagroups.in)

# Welcome To Archana BioCycle

From Us.....

Welcome to Archana BioCycle, founded in 2025 to provide eco-friendly energy through biomass solutions.

We convert agricultural waste into clean-burning briquettes and pellets.

Our fuels are sustainable, cost-effective, and industry-ready.

With a focus on rural empowerment and green innovation, we're driving India toward a cleaner future — one briquette at a time.

Join us on the journey to sustainable energy.

– Archana BioCycle

# About Us

## Company History

### Started in 2025

Archana BioCycle focuses on converting agricultural and industrial waste into clean, renewable fuel. We produce eco-friendly biomass briquettes and pellets. Our mission is to promote green energy, reduce pollution, and support rural development.

### Vision

To be a trusted name in renewable energy innovation.  
By turning waste into clean fuel, we enable smart energy choices.  
We promote sustainable growth across industries while supporting rural growth and self-reliance.

### Mission

Our mission is to provide reliable biomass energy solutions that reduce environmental impact, support rural development, and serve diverse industrial needs through sustainable practices and efficient delivery systems.

# Our Products

## BIOMASS PELLETS

### Rice Husk Pellets

SIZE: 6 - 10 mm  
GCV: 3200 - 3600 kcal/kg  
ASH: 15 - 20%  
MOISTURE: 6 - 10%

### Groundnut Pellets

SIZE: 8 - 10 mm  
GCV: 4000 - 4500 kcal/kg  
ASH: 5 - 10%  
MOISTURE: 5 - 8%

### Sawdust Pellets

SIZE: 6 - 8 mm  
GCV: 3800 - 4200 kcal/kg  
ASH: 5 - 10%  
MOISTURE: 6 - 10%

### Mustard Pellets

SIZE: 8 - 10 mm  
GCV: 3600 - 4000 kcal/kg  
ASH: 6 - 10%  
MOISTURE: 5 - 8%

### Agrowaste Pellets

SIZE: 8 - 10 mm  
GCV: 3400 - 4000 kcal/kg  
ASH: 8 - 12%  
MOISTURE: 6 - 10%

### Sugarcane Pellets

SIZE: 6 - 10 mm  
GCV: 3300 - 3700 kcal/kg  
ASH: 5 - 8%  
MOISTURE: 8 - 12%

## BIOMASS BRIQUETTES

### Rice Husk Briquettes

SIZE: 70 - 90 mm  
GCV: 3300 - 3600 kcal/kg  
ASH: 5 - 10%  
MOISTURE: 5 - 10%

### Groundnut Briquettes

SIZE: 70 - 90 mm  
GCV: 3800 - 4200 kcal/kg  
ASH: 5 - 10%  
MOISTURE: 5 - 10%

### Sawdust Briquettes

SIZE: 70 - 90 mm  
GCV: 4000 - 4200 kcal/kg  
ASH: 5 - 10%  
MOISTURE: 6 - 10%

### Mustard Briquettes

SIZE: 70 - 90 mm  
GCV: 3300 - 3600 kcal/kg  
ASH: 6 - 10%  
MOISTURE: 5 - 8%

### Agrowaste Briquettes

SIZE: 70 - 90 mm  
GCV: 3300 - 3600 kcal/kg  
ASH: 8 - 12%  
MOISTURE: 6 - 10%

### Sugarcane Briquettes

SIZE: 70 - 90 mm  
GCV: 3300 - 3700 kcal/kg  
ASH: 5 - 8%  
MOISTURE: 8 - 12%

# Our Products

## BIOMASS HUSK

**Groundnut Husk**

GCV: 3300 - 3600 kcal/kg  
ASH: 10 - 12%  
MOISTURE: 12 - 15%

**Wood Chips**

GCV: 3800 - 4200 kcal/kg  
ASH: Below 10%  
MOISTURE: 15 - 20%

**Mustard Husk**

GCV: 3000 - 3300 kcal/kg  
ASH: 10 - 12%  
MOISTURE: 12 - 15%

**Cashewnut Shell**

GCV: 4500 - 5000 kcal/kg  
ASH: Below 5%  
MOISTURE: Below 10%

**Rice Husk**

GCV: 3200 - 3600 kcal/kg  
ASH: 15 - 20%  
MOISTURE: 10 - 15%

**Cotton Stalk**

GCV: 3300 - 3700 kcal/kg  
ASH: 8 - 12%  
MOISTURE: 10 - 15%

# Our Services

## Agri-Waste Procurement

We source agricultural residues like husk, shells, stalks, and other organic waste directly from farms and suppliers, ensuring sustainable raw material collection for biomass fuel production.

## Biomass Fuel Processing

Using advanced techniques, we convert collected agri-waste into high-efficiency biomass fuels such as pellets and briquettes, helping reduce environmental impact and promote cleaner energy.

## Supply & Delivery

We offer reliable bulk delivery of processed biomass fuels to industries, institutions, and commercial facilities, ensuring timely and eco-friendly energy solutions across regions.

[www.archanagroups.in](http://www.archanagroups.in)

# Our Advantages

## Trusted Ground Experience

Born from local expertise and real fieldwork.  
We handle biomass the way it's meant to be handled.  
Efficient, smart, and grounded in experience.

## Green Innovation

We implement eco-smart processes at every stage.  
Cleaner technologies help us minimize emissions.  
Our goal is a greener, more sustainable future.

## Strong Customer Support

We listen, assist, and act – always on time.  
Your concerns matter, and we respond fast.  
Support that feels human and dependable.

## Continuity

We ensure a continuous supply of biomass fuel – from raw material to final delivery.  
Our reliable process keeps your operations running without delays.  
With Archana BioCycle, your energy flow stays steady and uninterrupted.

# Thank You

We are ready to help you  
achieve a more sustainable  
agricultural future.
